## Face Slot Technology Makes RSi Our Longest Iron, Even When You Miss The Sweet Spot\*

### ► Progressive Slot Technology

#### ► NEW Face Slot Technology in the 3-8 iron:

- Two slots located near the heel & toe of the clubface that provide uniform flexion across the face
- Protecting ball speed and generating more consistent distance on off-center hits

#### ► Improved Speed Pocket with ThruSlot Technology in the 3-7 iron:

- Provides ball speed protection on shots below the center of the face
- Increases launch angle and ball speed on all shots

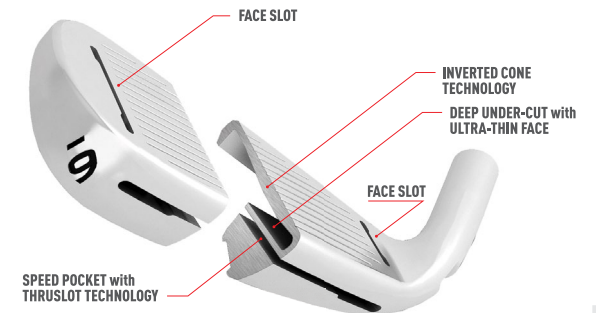

#### ► Advanced Face Design—our thinnest face, deep undercut and Inverted Cone Technology combined—promote maximum face speed

#### ► Improved sound and feel through advanced construction & multiple dampening systems

#### ► New Reax 90 steel shaft from True Temper helps to optimize ball flight for ultimate distance and performance

### ► Advanced Face Design

Maximum face speed through a combination of innovations

\* distance claim based on 4-iron test data. RSi 1 Irons designed with a COR up to the USGA limit. Due to manufacturing tolerances, not all irons will reach the maximum.

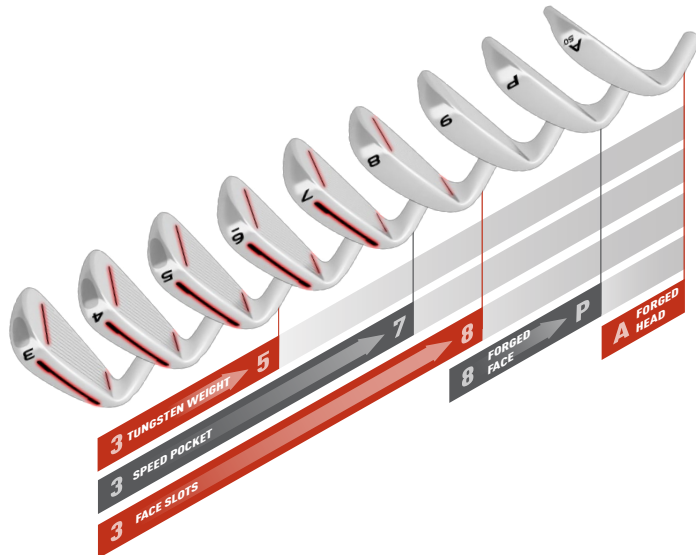

“ The RSi 2 iron set provides the ideal blend of performance and beauty. We have combined a progressive multi-material construction (Tungsten and Forged Components) with our most innovative performance technologies (Face Slots, Speed Pocket with ThruSlot) to provide the best of all worlds in a slim, beautiful package.

## Forged and Tungsten Technology Meets Face Slots

### ► Progressive Multi-Material Construction

Construction technologies infused where they are needed most:

- Introducing revolutionary Face Slot Technology in the 3-8 iron:
  - Provides more uniform flexion across the face that protects ball speed and generates more distance on off-center hits toward the heel & toe
- Speed Pocket with ThruSlot Technology in the 3-7 iron:
  - Provides ball speed protection on shots below the center of the face
  - Increases launch angle and ball speed
- Progressive Multi-Material Construction
- KBS Tour 105 Shaft
